

BIO ON MIKE GREEN- MASTER SUPERINTENDENT

Mr. Green is a Sheet Metal/Roofing Foreman. Mike started his employment with Van Winkle Roofing Inc. on March 31, 1993. Mr. Green reached foreman status after only one year of employment with Van Winkle Roofing Inc, and he has been head of the sheet metal shop since 1998. During his time as foreman, Mike has had many of men work with him. He has trained and supervised many employees from "labor" to journeyman roofer status.

Throughout his employment with Van Winkle Roofing Inc. Mike has referred many employees to the company, which are still working for us. Mike even referred our full time mechanic.

Anyone, who ever works with Mike, speaks highly of him. His fellow employee's enjoy working with him, because he has patience and is willing to teach them the industry trade

Mike gets along with all of his fellow workers, and everyone gets along with him. When a new employee comes to work for us, they all want to work under his supervision.

Mike is a leader in all areas of the work ethic and is well respected in the industry; from fellow workers to General Contractors. He generally is the first one to work (most of the time even before the owners) and the last to leave.

Mike encourages all of his men to try their hardest and to get the job done in the way that Van Winkle Roofing inc. sets their standards. Among his many accomplishments are:

- Attracting new workers to the company.
- Retaining existing employees
- Mentor
- Teacher

During this time Michael has excelled in may areas of Van Winkle Roofing Inc. He is a reliable, trustworthy, and hard working employee. Among his many accomplishments are:

- Employee since 1993
- 12 consecutive years of Perfect Attendance
- 12 consecutive years of Excellent Safety Record
- Reached Foreman Status after only 1 year of employment
- Foreman of the year 2001
- Foreman of the year 2002
- Foreman of the year 2003
- Numerous Awards for Outstanding Job Performance
- Numerous letters of Appreciation from Contractors
- Innovative ideas and creations adopted by the company

Mike has valuable knowledge in several different areas of the roofing industry, including but not limited to; Metal Roofing (Including details), Fiberglass Shingles. Wood shingles/shakes, all areas of EPDM Roofing, and built up roofing. Mike is also educated in our sheet metal shop, working with all types of metal, including custom design copper work. Mike is a specialist in making and installing gutter, fascia, downspouts, roof jacks, air conditioning ducts, transitions, air conditioning bases, scuppers, and soffits.

Among Mike's many valuable assets to Van Winkle Roofing, he is also; First aid/CPR certified, holds numerous certificates in the roofing industry, as well as a Forklift/Sky track certified operator.

Mike's most recent accomplishment is taking over the position of MASTER SUPERINTENDENT in April 2007.
